

THE LAST CONTEST

WHICH THE PRESENT CONGRESS WILL BE ABLE TO HEAR.

ASHBELL FITCH'S CHANGE OF POLITICS

Cabinet Speculations Renewed—John W. Glenn's Attack on the Georgia State University—The House Affairs.

WASHINGTON, February 17.—[Special.]—The last contested election case before the present congress will be called up on Monday, provided Judge Crisp can get recognition.

It is the Sullivan-Felton case, from the fifth district of California.

The contestant, Mr. Sullivan, is a democrat, and the majority of the elections committee have reported that he is entitled to the seat now occupied by Mr. Felton.

Mr. Felton's report that there can be no question of the legal election of Sullivan and that Felton should be thrown out and Sullivan be allowed to occupy the seat to which he was elected.

The minority of the committee composed entirely of republicans, however, report that Felton is entitled to the seat he now holds.

Neither of the men were candidates for election to the fifty-first congress and consequently there is nothing for Sullivan to gain by getting the seat, as he would only hold it a few days, except the \$20,000 salary attached to it.

Of course if Felton is turned out he will have all of his salary up to the day he gets out, but, nevertheless, Sullivan will draw the full two year's salary attached to the office, and the government will be the only loser thereby.

The government also pays all the expenses of lawyers, etc., in the trial of the case before the elections committee which, in itself, will amount to about seven thousand dollars.

But it is not at all certain that Felton will be turned out and Sullivan allowed to come in, although there can be no question of Sullivan's legal election.

In contested election cases the vote is nearly always a party one. In some cases democrats have voted with the republicans, as in the Small-Elliott contest, but there is not a case on record in many years where a republican has deserted his party and voted with the democrats.

In this case the republicans as usual will hold together, but there will be many democratic deserters. The number of those who will decide the case, and, judging from present appearances, it seems that Felton will hold his seat—not, however, because he was elected, but because of his great personal popularity with the members of both parties.

Felton has refrained from taking any part in debate on party questions during this congress, and has therefore made no enemies. But, instead, he has been at work all the time since his arrival here, nearly two years ago, making friends—a both republican and democratic.

He is a man of handsome appearance and good address, and, above all, is immensely wealthy. He has used his wealth to advantage. He has entertained often and handsomely. Democrats as well as republicans have repeatedly been his guests, and there are many democrats who are warm friends of the Californian that they would not think for an instant of casting a vote to unseat him.

Thus it is almost certain that Felton will hold his seat, which proves that a congressman's vote is as much influenced by the treatment of his stomach as the action of any ordinary mortal.

HE WILL CHANGE HIS SEAT.

There is a man now serving in the house of representatives as a republican who has been re-elected from the same district to the next congress as a democrat. That man is Ashbell Fitch, of New York. He represents the thirteenth district, comprising the upper portion of New York city.

Mr. Fitch was elected to the 50th congress as a republican and he now serves as one. But when the Mills tariff bill came up last session he deserted the ranks of this party and voted with the democrats.

The republican papers in New York City and elsewhere immediately proceeded to read him out of the party. Mr. Fitch said "all right. If I can't vote for my convictions I will get out." And he got out and went into his district and ran for congress as a democrat. He was elected and next session he will move over to the democratic side of the house.

FEDERAL LEGISLATION

THE PRESENT CONDITION OF THE APPROPRIATION BILLS.

A WEEK OF BUSINESS IN THE SENATE

Mr. Mills's Opposition to Revenue Legislation—The Status of the Covies Bill—General Washington News.

WASHINGTON, February 17.—The present indications point to a week of business activity in the senate. Mr. Hale will to-morrow call up his census bill, with the amendments recommended by the committee, and heretofore outlined in these dispatches.

To-morrow is also the day assigned for the presentation to congress by Senator Palmer, on behalf of the state of Michigan, of the bronze statue of Lewis Cass, now standing in the senate chamber.

His speech will be followed by remarks from Senator Chandler, of New Hampshire, Cass, native state, and by Senators Pugh and Morgan, who served in public life with him.

THE APPROPRIATION BILLS.

After a week's hard work the sub-committee in charge of the sundry civil appropriation bill have completed it for submission to the full committee to-morrow morning, and probably to the senate during the day, so that it may be taken up Tuesday.

The committee amendments make a large increase over the amount appropriated by the house.

Chairman Allison expects that the entire week after Monday will be occupied by the consideration of the appropriation bills. These measures are fairly well advanced for this period of a short session. The diplomatic and consular and military academy bills have passed both houses and gone to the president. The District of Columbia, the fortification, the legislative and pension bills are in conference.

The naval bill is before the house committee on appropriations with senate amendments. The sundry civil, army and agricultural bills have passed the house, and are before the senate committee. The Indian, the postoffice, the deficiency, the river and harbor bills have been reported to the house and are still on the calendar. All these bills will undoubtedly get through before the session closes, except, possibly, the deficiency bill. If they become laws in anything like the shape given them in the senate, they will go far towards disposing of one argument for an extra session of congress this spring.

The agreement upon the direct tax bill will be out of the way, and the surplus and the appropriations that seem to be agreed upon as necessary will practically absorb the balance for the coming year, in the opinion of those who have made a study of the bills.

THE EXTRA SESSION.

In the past week there has been a decided change of sentiment on the question of an extra session, and among the senators at least the conviction now is quite general that the extra session will not be called before October, if at all.

One or two reports of the conference committee upon appropriation bills are likely to come in this week, where the differences between the houses are small, as is the case on the sundry civil appropriation bill.

The discussion of the Texas election report may be continued to fill up the time that the appropriation committee cannot occupy. This exhausts the list of probabilities.

THE WEEK IN THE HOUSE.

The present week promises to be one of interest in the house, and will probably be ushered in by a day of filibustering on "suspension Monday."

Mr. Outlaw, of Ohio, chairman of the committee on Pacific railroad, has introduced a bill for the construction of a Pacific railroad from the mouth of the Mississippi to the Gulf of Mexico.

THE ELECTRIC SUGAR FRAUDS.

All the Parties Thereto Arrested on Saturday Night.

ANN ARBOR, Mich., February 17.—All the parties interested in the Electric Sugar Refining company frauds were arrested at Milan last night, the sheriff returning to this city about midnight with Mrs. Olive E. Friend, William E. Howard, Emily Howard, Gus Halstead and George Halstead, and placed them in the county jail, where they are confined. They were arrested for obtaining money under false pretenses, these indictments having been found against them by grand jury of New York last January. One is issued for fraud against the sugar company, and two on the complaint of Lawson N. Fuller, of New York. Of these indictments requisitions were made on the governor of Michigan, who issued warrants for their arrest on February 1st. The frauds were made by the parties within the state at the same time. Mrs. Friend was in concealment and Howard was at Windsor. Yesterday morning they returned to Milan, feeling sure that no criminal action would be brought, but they were arrested as above stated. As it was late no bail could be obtained, and they remained in jail. Howard, it is understood, turned to New York there would be a sensation greater than had ever stirred that city.

SHOT THROUGH THE TEMPLE.

A Husband Murders His Wife and Daughter and Kills Himself.

TECHUMSEH, Mich., February 17.—Frank L. Silvers today shot his wife and two daughters, Edith and Alice, aged eleven and nine respectively, and then shot himself. The bodies were found this morning by the neighbors, who forced open the door. In the parlor lay the body of Mrs. Silvers, and in the bedroom the bodies of the children were found in the bed upstairs, and in the same room, on the floor, lay Silvers, bleeding in blood and still breathing. Every one of the victims had been shot through the temple, and with the exception of Silvers himself, death probably was instantaneous. He is still alive, but unconscious, and cannot respond to any questions.

Horrible Enough, But Not Murder.

CHICAGO, February 17.—The police found the mutilated remains of a woman packed in a barrel lying on Butterfield street, near Twenty-third street, this morning. The woman had been murdered, and it was thought a ghastly murder had been committed. On investigation, however, a card was found in the barrel indicating that the woman had been at the county hospital, and that the barrel had probably fallen off an overloaded wagon in transit.

The Result of Piano Practice.

NEW YORK, February 17.—Herman F. Keidel, junior partner of the firm of Wm. Knabe & Son, and manager of the branch piano warehouse on Fifth avenue, committed suicide this morning by shooting himself through the head.

THE NEGRO EXODUS.

Which the People of North Carolina Cannot Stop.

RALPH, N. C., February 17.—[Special.]—A large number of negroes are flocking out of the state, and it is said that hundreds are preparing to leave. White agents are here urging the negroes to leave. The train this morning over one hundred left. There are over twenty-five thousand negroes in this county. Many are very ignorant and superstitious, in spite of educational efforts. They are leaving the state, many of them, because of the exodus from Goldsboro, which has been stopped, it is beginning at other points. A train load of negroes, men, women and children, passed here late last night on their way to Johnston county, N. C. The agents here are endeavoring to induce the negroes to promise to make speeches urging the people of their race to go to the north, and to leave the state. It is believed that the exodus will continue for some time. It is believed that the exodus will continue for some time. It is believed that the exodus will continue for some time.

SIX CARS BURNED.

The Destructive Results of a Tail-End Collision.

CHATTANOOGA, Tenn., February 17.—[Special.]—A tail-end collision occurred between two freight trains in tunnel No. 17, on the Cincinnati Southern railroad, just north of Oakdale, 105 miles from this city, last night. Freight train No. 11, south bound, ran into a special in the tunnel, smashing the caboose and killing two men. The engine of the special, which was carrying a load of lumber, was also damaged. The fire engine was unable to accomplish much good up to this hour. There are a number of cars in the tunnel which are still burning.

A MIXED SCHOOL EXPERIMENT.

How It is Driven Colored Tenants Away in Ohio.

GEORGETOWN, Ohio, February 17.—A peculiar state of affairs is brought to light among the farming communities of this county, prominent in the famous "Arnett law." Formerly our farmers had numerous colored tenants, but since the passage of the Arnett law, which makes mixed schools imperative, the colored tenant farmer is being slowly driven away. When ever his lease runs out, he is now quietly informed by his white landlord that the latter has another man for his place. Upon applying to the landlord for the reason, he is told that the land is wanted by a white man. The colored tenant farmer is thus being driven away from the land, and the white man is taking his place. The colored tenant farmer is thus being driven away from the land, and the white man is taking his place. The colored tenant farmer is thus being driven away from the land, and the white man is taking his place.

THE FLORIDA LEGISLATURE.

JACKSONVILLE, Fla., February 17.—The members of the legislature are gradually scattering, and the session will probably close on Tuesday or Wednesday next. The senate board of health bill will undoubtedly pass. No other matter of legislation will be taken up.

A Village Lighted by a Meteor.

ELLIOTT CITY, February 17.—An unusual meteorological phenomenon was witnessed at Oella, near here. A brilliant luminous cylindrical body passed over the town, seemingly not more than several hundred feet above the earth, and forming a curve appeared to descend to the ground not more than a mile from the village. Its course was with the Patuxent river, in a northwesterly direction, and during the time it was visible, which was several seconds, the vicinity was lighted as brightly as if by an electric lamp. Just at the time of its appearance a number of villagers were returning from work, and the uncommon sight created considerable alarm among them.

## THE TALK OF THE PRESS.

## THE SUSPENSION OF THE ROMAN EVENING HERALD.

Hon. J. W. Northern's recent speech here attracted much public attention.

The Evening Herald, of Rome, has discontinued publication. No reason is given. The Herald was a very sprightly journal. This fact moves the Tribune to say:

Since the establishment of the Tribune, evening journalism in the United States has been very unfortunate.

The first issue of the Tribune of Rome made its appearance on October 2, 1877. This has been a little over one year ago, but in that short time five different daily papers have failed.

The Bulletin was the Tribune's only contemporary when it started. Alva C. Lowry was editor and proprietor, or rather Dr. A. C. Lowry had an interest in the paper. The paper fought the Tribune bitterly and went on all night in the latter part of December, having lived scarcely three months.

With the new year, came the Evening Clipper, an improvement on the Bulletin, being a much better paper. Messrs. Clement & Fowler were the proprietors. It was a very good paper, but it failed in Rome suddenly, leaving its partner, Will Clement, in the lurch.

The next week came the Evening Dispatch, which Messrs. D. A. G. Outz, J. D. Clement and T. E. Clement were connected. It started up about January 1, 1878, and lived for a few weeks, after about three months of life, the Dispatch kicked, kicked, and died, and the Evening Herald, with many regrets, left the hills of eternal Rome.

When the "battering buds" of spring were in full bloom there came the Evening News, which, headed over by Messrs. Charles R. Langworthy and J. D. Clement, did not see the flowers die, for its career was the shortest of the short-lived ones. It was the last evening paper Rome had seen up to its time.

Then came the Evening Herald, which was a very readable paper and ranked among the bright afternoon papers of the state. It was founded by Tatum Brothers, who were at that time in Rome, and it was a very good paper, but it failed in Rome suddenly, leaving its partner, Will Clement, in the lurch.

When the "battering buds" of spring were in full bloom there came the Evening News, which, headed over by Messrs. Charles R. Langworthy and J. D. Clement, did not see the flowers die, for its career was the shortest of the short-lived ones. It was the last evening paper Rome had seen up to its time.

Then came the Evening Herald, which was a very readable paper and ranked among the bright afternoon papers of the state. It was founded by Tatum Brothers, who were at that time in Rome, and it was a very good paper, but it failed in Rome suddenly, leaving its partner, Will Clement, in the lurch.

The next week came the Evening Dispatch, which Messrs. D. A. G. Outz, J. D. Clement and T. E. Clement were connected. It started up about January 1, 1878, and lived for a few weeks, after about three months of life, the Dispatch kicked, kicked, and died, and the Evening Herald, with many regrets, left the hills of eternal Rome.

## THE FORKED LIGHTNING.

## THE BAPTIST CHURCH IN ADAIRSVILLE STRUCK.

A Barn St on Fire—The Capers of the Electric Fluid in Perry, but No Lives Lost.

ADAIRSVILLE, Ga., February 17.—[Special.]—The people of the Baptist church here were struck by lightning this morning about five o'clock and set the church on fire. Considerable damage was done by the lightning. The partition wall between the vestibule and the main room of the church was torn to pieces. Dr. Bradley being up and discovering the fire, gave the alarm. The fire was soon extinguished by the aid of buckets and our amateur fire company.

Mr. George W. Dow's barn, near by, was also struck by lightning during the night and torn to pieces.

The Lightning in Perry.—[Special.]—During a severe thunder storm which passed over Perry this morning about 4 o'clock, lightning struck the residence of Mrs. C. T. Lawson, on Swift street, tearing a large hole in the roof and passing down near the chimney through the house, scattering the contents, but doing no damage to the family beyond the shock.

WARM IN AUGUSTA.

And the People Spent the Afternoon on the Streets.

Augusta, Ga., February 17.—[Special.]—The weather bureau predicted a cold wave for Augusta Monday morning, but it will require a very decided change to fulfill the prediction. Today's temperature would have done credit to May. The people had their windows up in their houses, or spent the afternoon sitting on their piazzas and balconies. Tonight chairs line the piazzas of the hotels, and men are sitting in the open air, smoking and chatting as on summer evenings.

RAIN HAS FALLEN.

Several times in the past forty-eight hours, and the atmosphere is sultry and close. Thunder and lightning have occurred several times in the past twenty-four hours, but there are no special indications of a storm. Rains up to the mountains are reported, but it will go very dry over 26 feet. Ten feet more would not bring a freshet.

The thermometer today has been to 75 degrees.

THE CHURCHES WERE FILLED.

By resident pastors to-day, and no special services were held.

Rev. C. S. Lucas continued his series of sermons upon the Bible in literature with a discourse to-night upon the subject of "The Millennium." He has already discussed "The Millennium," and "Robert Elsmere." His discourses are largely appreciated.

The River Rising.

Rome, Ga., February 17.—[Special.]—The recent heavy rains have swelled the Oostanaula river very much. The river has risen an average of four inches an hour today. People who are on the river are very anxious to get out, as the water is very high.

THE OLD SILVER MINE.

Whose Existence Was Known Only to the Indians.

BUENA VISTA, Ga., February 17.—[Special.]—Many years ago, when the red men roamed over the forests of Georgia, there was in the piney woods above Tazewell, a silver mine. The location of this mine was known only to the Indians. They worked it for some time and brought the silver to this place to sell to a man who was in the mercantile business, but whose name has been forgotten. A few years ago, an inquiry was made as to the location of the mine in such a way as to prevent further work. The mine was then abandoned.

After the Indians left this country for the west the merchant offered \$10,000 to any one who would discover the mine. After many years of search, the mine was discovered by all except one man, who discovered the location of the mine several years afterward by the dirt work and the old pieces of pump. The gentleman, from some cause or other, was unable to purchase the property at the time, and it is owned by an estate, the heirs of which have moved away and left the property unworked for, nor do they know anything of their having been discovered in the place.

The location is known to a few persons. It also corroborates everything that has been said about it. A son of the man who discovered the mine is now a citizen of Marion county, and he is now in the mercantile business.

The father came to town and got three warrants against the bold fellows, one against both for kidnapping and two against Shelton for carrying concealed weapons and assault and battery.

THE GEORGIA CHAUTAUQUA.

All Preparations Made for a Successful Season.

ALBANY, Ga., February 17.—[Special.]—The Georgia Chautauqua is all the talk here now, and promises to be a great success.

Mr. H. M. Mcintosh, secretary and superintendent, is working indefatigably and superintending his entire time to this important and improving enterprise. His correspondence is already simply immense and is constantly increasing.

A meeting of directors took place this week. Another meeting will be held on Tuesday evening, when plans and specifications will be discussed, and the first work commenced on the assembly building to be erected on the Chautauqua grounds.

The first meeting of the Georgia assembly will be held at the courthouse plaza in this city on Monday, March 25. There will be fine music and addresses by the president, the mayor, Drs. Dunning, Duncan and others.

Among those engaged to lecture are J. W. Hamilton, D. D., of Boston, Mass.; Lyman Abbott, D. D., the author and historian; R. S. McArthur, D. D., A. J. F. Behrman, D. D., H. W. Gray, D. D., and other distinguished Georgians will participate. A petition will be sent to Bishop Beckwith to give a lecture upon the Holy Land. Prof. Clifton, of Macon, will give a lecture illustrating the progress of the human mind.

Dr. A. E. Dunning, principal of the Chautauqua Normal Union, of Boston, has been engaged as superintendent of instruction, and will be assisted by Dr. A. Duncan, superintendent of the Georgia Chautauqua.

The music promises to be very fine. Mr. A. C. Von Gundelf is president of the local club. Miss Hattie Hall, a musician of considerable ability, is musical director, and is ably assisted by Messrs. T. H. Woolfolk, Mrs. W. P. Burks and Mrs. C. R. Lyon. There will be verses, glees, solos, quartets and choruses. Ten or twenty more before the opening of the assembly will be given by H. R. Palmer, musical director, will arrive from New York to thoroughly perfect the drill of the musicians.

The Chautauqua and gymnastic department will be under the tuition of a famous instructor from Brooklyn, N. Y.

FEEL THAT THEY WERE SOLD.

A Show Visits Talbotton and Disgusts the People.

Talbotton, Ga., February 17.—[Special.]—An imposition was passed on the people in Talbotton Friday night in the shape of a "magic lantern show." They rented the opera house and filled the town with attractive advertisements, promising a first-class theatrical performance. The first thing on the program was Punch and Judy. Then when the lights were turned off for the magic show the audience stood it as long as they could, so they thought the show was a good one. When the manager of the show saw the crowd leaving he came before the curtain and announced, "The last act closed the performance for tonight." To-day you cannot find a man in the town who will acknowledge that he went to the show.

General Lawton Withdraws.

SAVANNAH, Ga., February 17.—[Special.]—General Lawton, minister to Austria, has withdrawn from the firm of Lawton & Cunningham. The firm is now being run by the minister's son, a member of the firm.

Dealers here have advanced the price of coal five percent on all grades.

Death of Dr. Beall.

REYNOLDS, Ga., February 17.—[Special.]—Dr. J. D. Beall, one of the oldest and most influential citizens of this county, died Friday of pneumonia and paralysis, at his residence, near this town. He leaves a wife and several sons and daughters to mourn his loss.

Have Gained 37 Pounds Since I

Stopped Taking Morphine.

CHARLESTON, S. C., April 16, 1888

DEAR SIR--With much pleasure I am happy to say that a well woman today, and I have gained 37 pounds since I stopped taking morphine. After taking the first dose of your medicine I did not want any more morphine, and my friends saw me a month before I started to taking your medicine. I do not know me. You have made me a well and hearty woman, and I hope God will bless you and that you may cure all afflicted, for when a woman gets into the habit she had as well be dead. When I left Cedar Keys and came here, and when your medicine gave out I was all right. I wanted to wait and see if I would remain so. Doctor, you can use my name if you wish. I was taking six grains morphine a day. Your obedient servant and sincere friend,

JOSEY MARSHALL,

157 Market St., Charleston, S. C.

Big G has given universal satisfaction in the cure of opium and morphine habit. I prescribe it and feel safe in recommending it to all sufferers.

A. J. STONE, M.D.,

## NORTH STATE NEGROES.

AN ATLANTA MAN TELLS OF AN EXPERIENCE.

Reminiscences of an Old Fight Over Emancipation--A Republican and a Democratic Route--Early Tales of Railroad Agents.

"Leading the editorial in THE CONSTITUTION this morning on the negro question in North Carolina," said Mr. M. M. Welch to a CONSTITUTION reporter yesterday, "reminds me that I have had a little experience in the exodus business at Goldsboro, N. C., myself."

"What was your experience?"

"I think," continued Mr. Welch, "it was prior to the Tilden and Hayes campaign, possibly during the Hayes administration, I am not sure."

"I was at that time southern traveling agent for the Pennsylvania railroad, with headquarters at Richmond, Va. I received information that there were large numbers of colored people at Goldsboro waiting to go to Kansas. I took my little staff full of tickets and proceeded to that point."

"I found the town full of would-be emigrants, and more coming in every hour. Men, women and children, many of them insufficiently dressed for a mid-winter journey."

"I learned that they had sold their crops and mules and personal effects, and many of them had sold their houses, all of which they had sold at a sacrifice."

"I found they had been induced into this movement by two colored men who had been in Kansas and who had been holding secret meetings in that portion of North Carolina for some time, working up the exodus in the hope of realizing from the Pennsylvania railroad, with headquarters at Richmond, Va. I received information that there were large numbers of colored people at Goldsboro waiting to go to Kansas. I took my little staff full of tickets and proceeded to that point."

"I found the town full of would-be emigrants, and more coming in every hour. Men, women and children, many of them insufficiently dressed for a mid-winter journey."

"I learned that they had sold their crops and mules and personal effects, and many of them had sold their houses, all of which they had sold at a sacrifice."

I received information that there were large numbers of colored people at Goldsboro waiting to go to Kansas. I took my little staff full of tickets and proceeded to that point."

"I found the town full of would-be emigrants, and more coming in every hour. Men, women and children, many of them insufficiently dressed for a mid-winter journey."

"I learned that they had sold their crops and mules and personal effects, and many of them had sold their houses, all of which they had sold at a sacrifice."

"I found they had been induced into this movement by two colored men who had been in Kansas and who had been holding secret meetings in that portion of North Carolina for some time, working up the exodus in the hope of realizing from the Pennsylvania railroad, with headquarters at Richmond, Va. I received information that there were large numbers of colored people at Goldsboro waiting to go to Kansas. I took my little staff full of tickets and proceeded to that point."
